

The ESUP-Portail project (in a few words)

ESUP Portail

Pascal Aubry

Consortium ESUP-Portail / University of Rennes 1

The very beginning

- **2002: 4 projects selected by the French Ministry of Education**
 - about \$8M for the whole project
 - development and investment
- **Create an open-source portal for universities**
- **Adopt an existing solution or build a new one**
- **Distribute the final product**

The strategy and the targets

- **Strategy**

- *Schéma Directeur des Environnements Numériques de Travail (SDET)*

- *Architecture, authentication, interoperability*

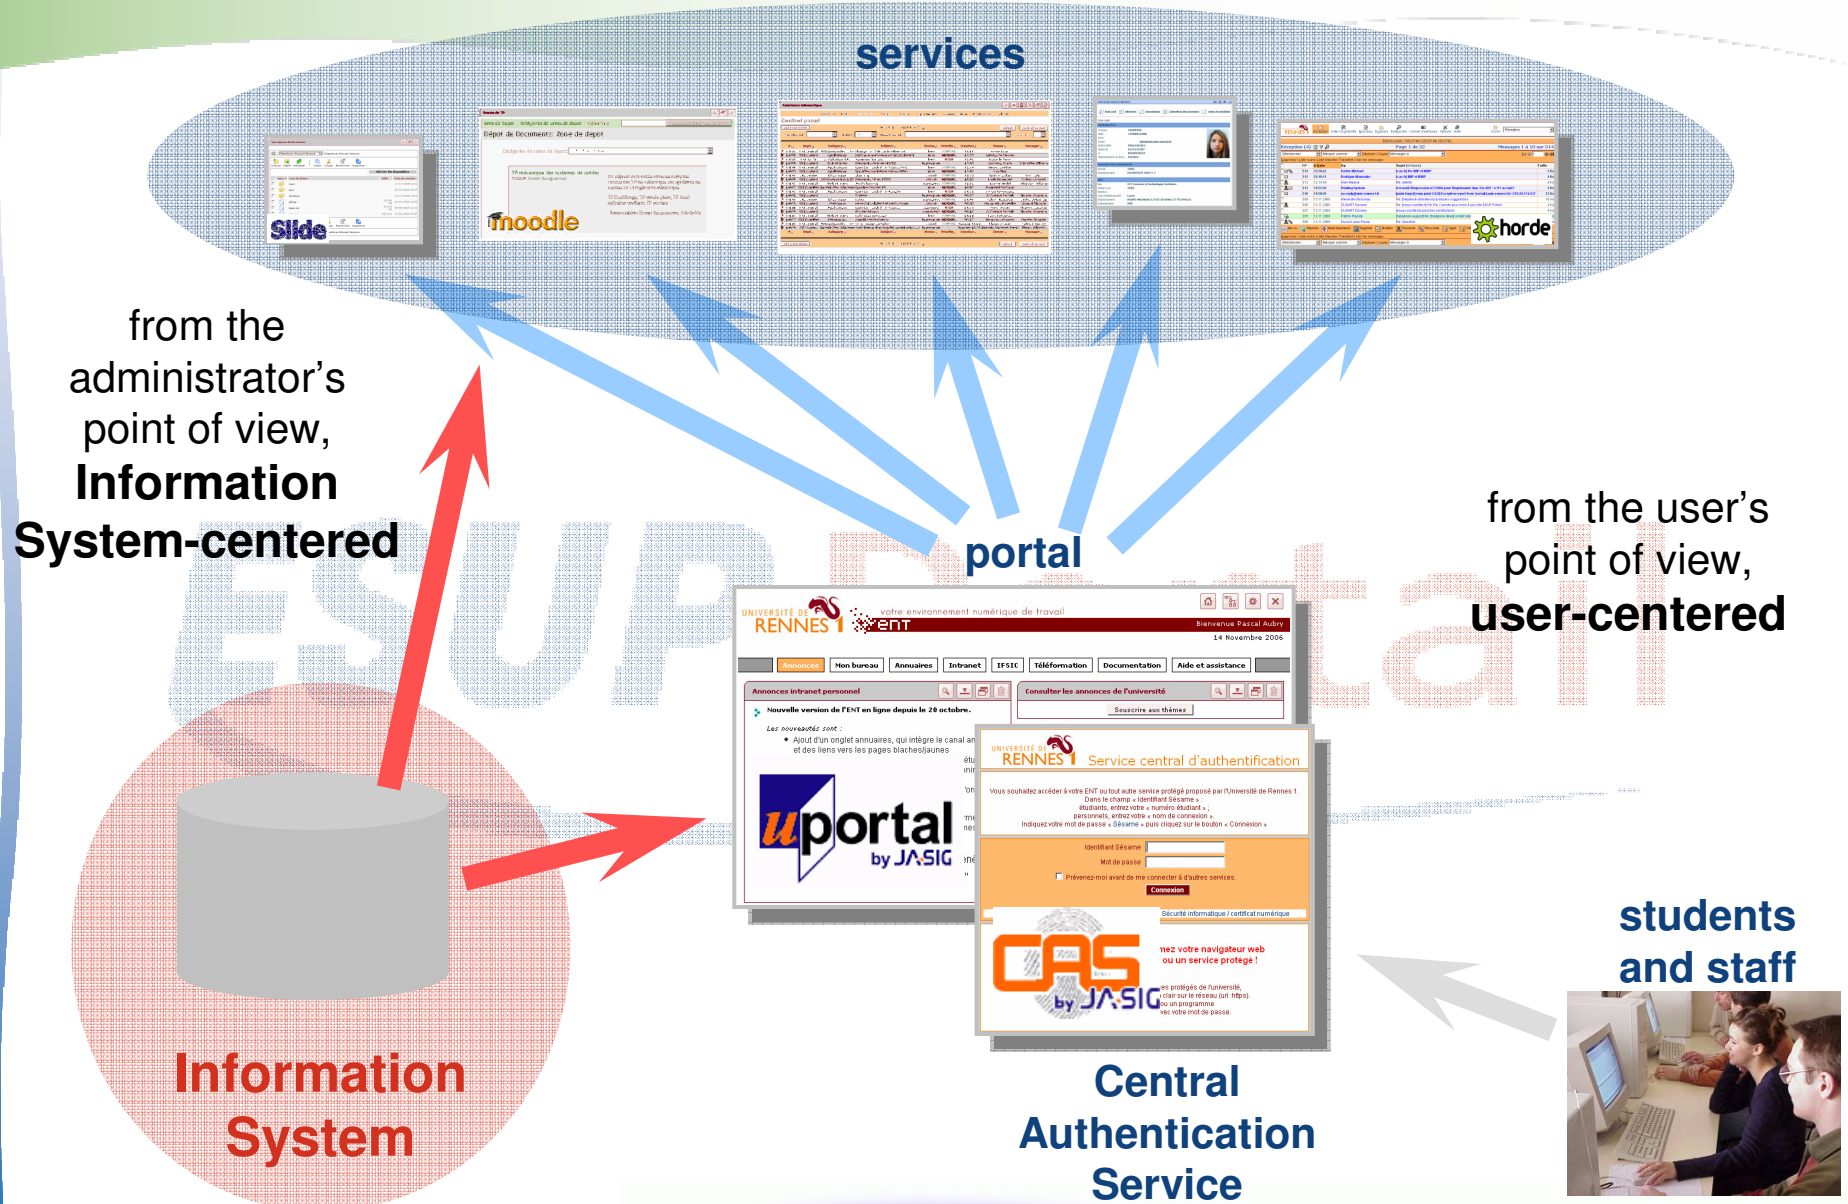

- **Targets**

- digital universities
- regional digital universities
- thematic digital universities

The architecture

The ESUP-Portail community

Copyright © 2006 ESUP-Portail consortium

- Today: 76 institutions; 300,000 users
- In the future: more than 1,000,000 users

ESUP Portail

The ESUP-Portail actions

- **Providing tools to universities**
 - Developing new applications
 - Integrating contributions
- **Supporting the community**
- **Federating the efforts**
 - Documenting the project
 - Publicizing project activities

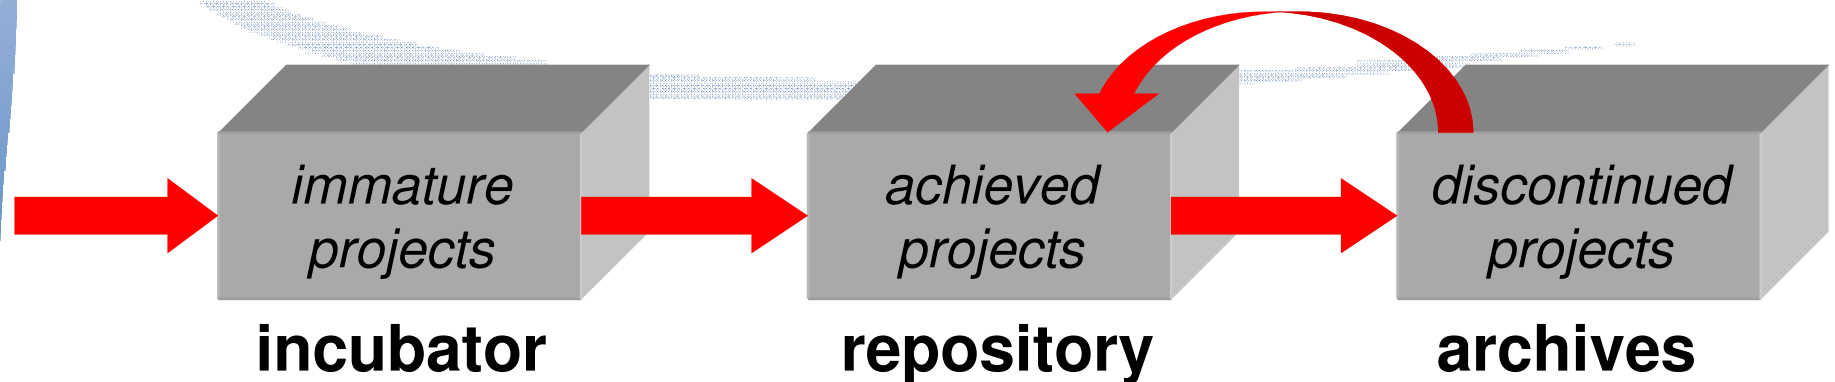

The organization

- An operational coordinating committee
- A technical coordinating committee

- Developers

ESUP Portail

Developments around JA-SIG products

- uPortal-esup: a pre-configured portal for the French university community
- uPortal-quick-start

ESUP Portail

- client librairies: **phpCAS**, perlCAS (CRU), pam_cas-esup, mod_cas-esup
- v2 utilities: CAS Generic Handler, CAS quick-start
- v3 French translation

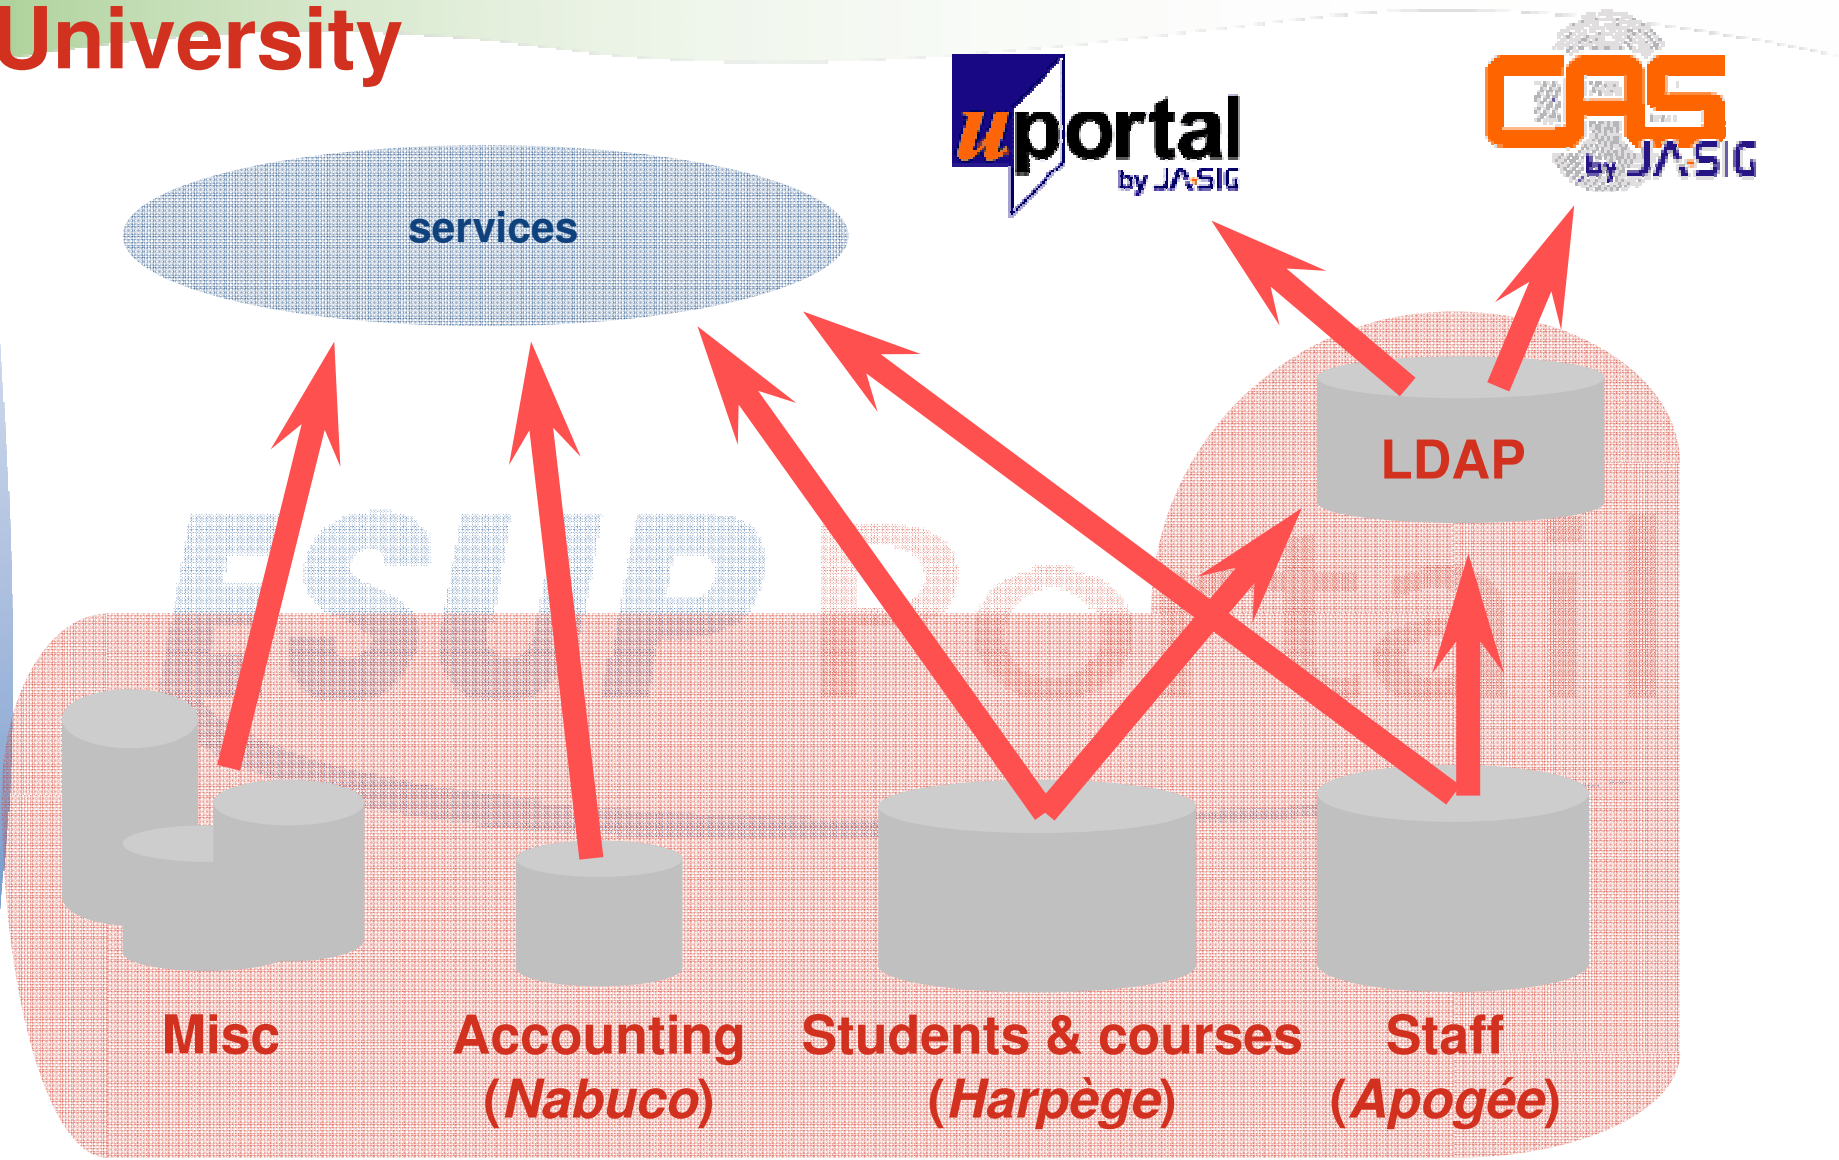

The uPortal-esup package

- A pre-configured uPortal installation
- Easy configuration
- A pre-filled database
- WAI effort
- French translations
- Full-page channels (from project Mille)
- Automatic generation of statistics

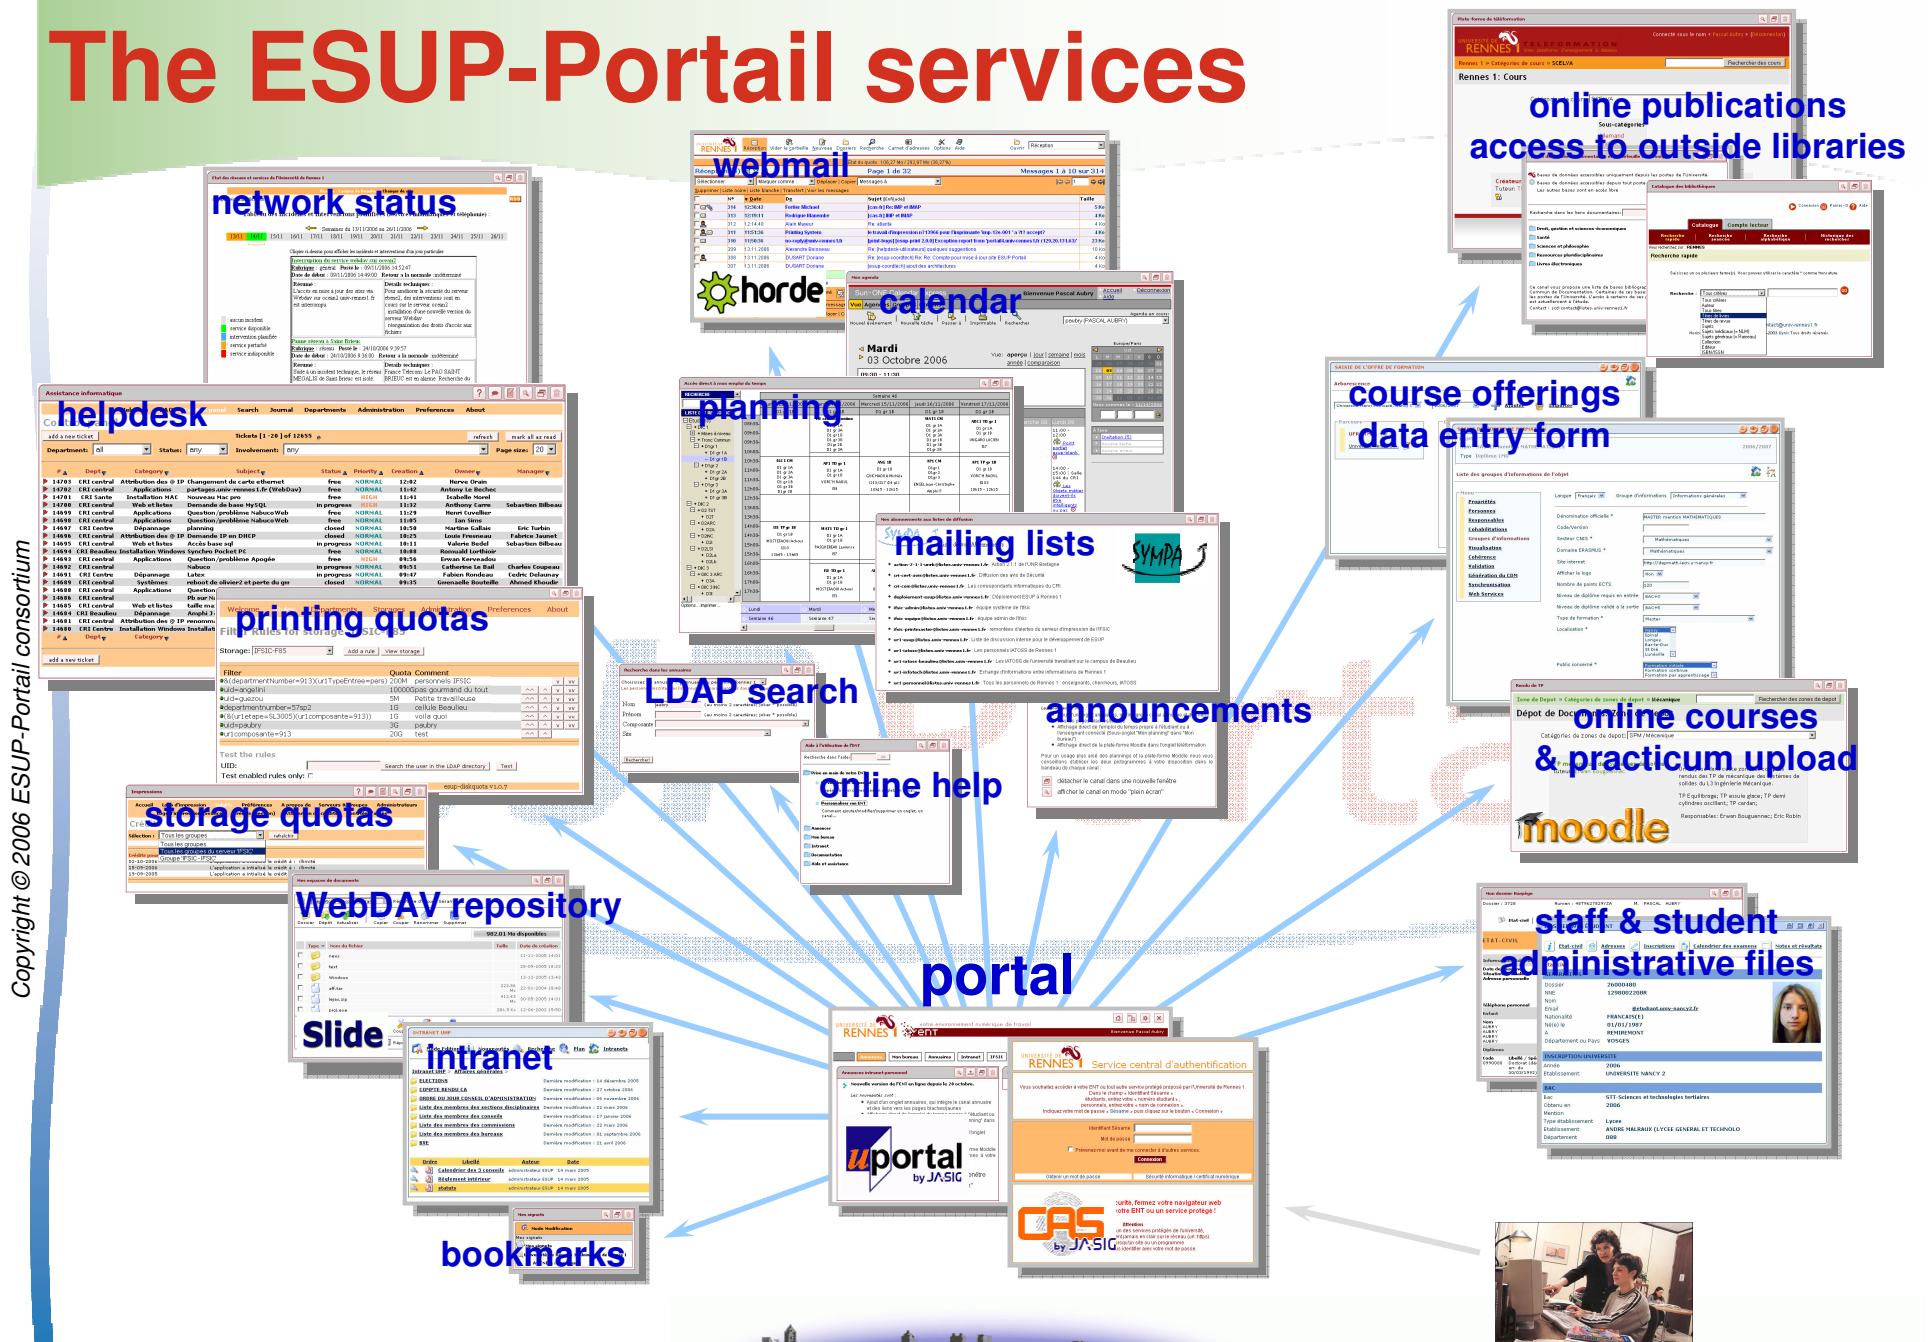

A typical Information System for a French University
